

20 NOVEMBER

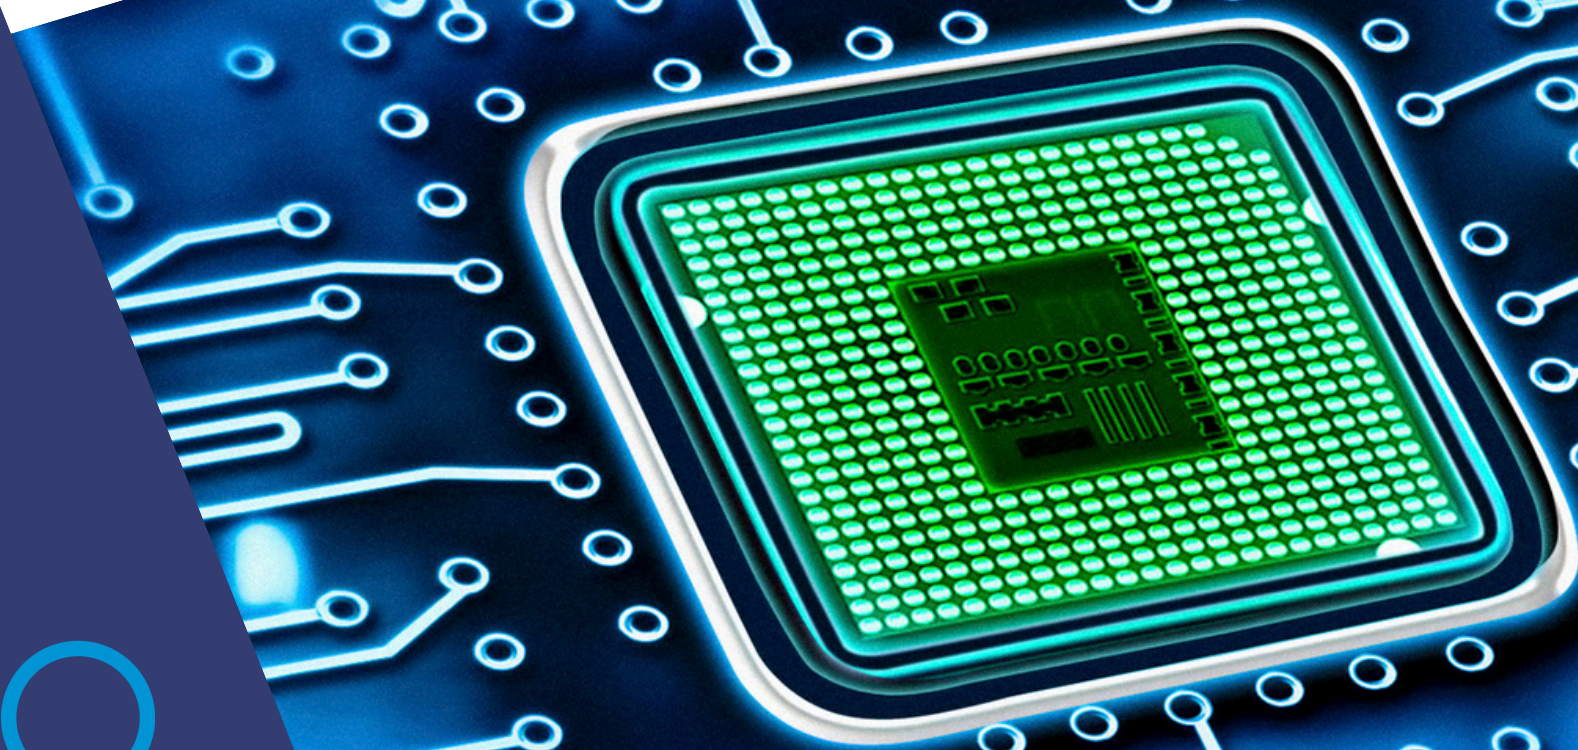

12:00

ROOM BT1.02

EMBEDDED LINUX

Workshop

8, George
Baritui Street
BT Building
Floor 1

Join us for a practical, hands-on workshop designed to introduce students to Embedded Linux. You'll learn the basics, set up a development environment, and gain experience in developing and deploying applications. Perfect for beginners and intermediate students looking to enhance their skills.

WHAT YOU WILL LEARN

- Embedded Linux Basics and its applications.
- Learn about development environment for Embedded Linux projects.
- Hands-on experience on Embedded Linux platforms.

TARGET AUDIENCE

Students passionate about Linux and Embedded systems

Prizes included!
