SYLLABUS

1. Data about the program of study

1.1 Institution	The Technical University of Cluj-Napoca
1.2 Faculty	Faculty of Automation and Computer Science
1.3 Department	Automation
1.4 Field of study	Systems Engineering
1.5 Cycle of study	Bachelor of Science
1.6 Program of study/Qualification	Automation and Applied Informatics, English
1.7 Form of education	Full time
1.8 Subject code	26.00

2. Data about the subject

2.1 Subject name	**Software Engineering**					
2.2 Course responsible/lecturer	S.l.dr.ing.Radu-Florin Miron: Radu.Miron@aut.utcluj.ro;					
2.3 Teachers in charge of seminars	S.l.dr.ing.Radu-Florin Miron: Radu.Miron@aut.utcluj.ro;					
2.4 Year of study	2	2.5 Semester	2	2.6 Assessment *(E – exam, C – colloquy, V – verification)*		E
2.7 Subject category	*DF – fundamental, DD – în the field, DS – specialization, DC – complementary*					DD
	DI – imposed, DO – opţional, DFac – facultative					DI

3. Estimated total time

3.1 Number of hours per week	4	of which:	Course	2	Seminars		Applications	2	Project	
3.2 Number of hours per semester	125	of which:	Course	28	Seminars		Applications	28	Project	

3.3 Distribution of the time fund (hours per semester) for:	
a) Individual study	16
b) Manual, lecture material and notes, bibliography	10
c) Supplementary study in the library, online and in the field	30
d) Preparation for seminars/laboratory works, homework, reports, portfolios, essays	10
e) Tutoring	3
f) Exams and tests	

3.4 Total hours of individual study	69	
3.5 Total hours per semester	125	
3.6 Number of credit points	5	

4. Pre-requisites (where appropriate)

4.1 Curriculum	Logic design, Computer architectures Computer programming
4.2 Competence	Basic knowledge from mathematics, physics, mechanical engineering, electric and electronics engineering used in system engineering.

5. Requirements (where appropriate)

5.1. For the course	N/A
5.2. For the applications	the attendance is compulsory

6. Specific competences

6.1 Competenţe profesionale	**C2:** Operating with basic concepts of computer science, information technology and communication **C3**: Operating with fundamentals of control engineering,process modelling, simulation, identification and analysis methods, and computer aided design
6.2 Competenţe transversale	N/A

7. Obiectivele disciplinei

7.1 General objectives	design and implementation of control application
7.2 Specific objectives	control appl. specification and verification

8. Conţinuturi

8.1 Lecture (syllabus)	Nr.ore	Teaching methods	Notes
Introduction to software engineering	2	Multimedia, interactive	
Introduction to Java language	2		
Programming Basic Elements	2		
Object Oriented Programming	2		
Object management	2		
Input/output Programming for control applications	2		
Graphical interface programming for control applications	2		
Multithreading programming of control applications	2		
Design of control applications using Unified Modeling Language (UML)	2		
Specification of control applications using UML	2		
UML design diagrams for control applications	2		
Implementation of UML design diagrams	2		
Examples of control application design	2		
Examples of control application implementation	2		

Bibliography
1. T. Leţia. *Programarea avansată în Java*. Editura Albastră (Microinformatica), 2002.
2. K. Sierra, B. Bates, *Head First Java*, *3rd Edition*, O'Reilly Media, Inc, USA, 2022
3. OMG – Unified Modeling Language Specification.
4. R.G. Urma, M. Fusco, A. Mycroft, *Modern Java in Action*, Manning Publications, 2018.
5. B. Eckel. *Thinking in Java. Second edition*. Pearson Education, 2006.

8.2 Aplicații (seminar/laborator/proiect)*	Nr.ore	Theaching methods	Notes
Introduction to Java environment and Eclipse	2	Multimedia, interactive	
Applications with classes and objects	2		
Object management applications	2		
Exception and string applications	2		
Thread construction.	2		
Concurrent programming applications	2		
Graphic interfaces	2		
Class and object diagram implementation	2		
UML. Control application specification	2		
Sequence diagram implementation	2		
State diagram construction and implementation	2		
Activity diagram construction and implementation	2		
Compensatory	2		
Final test	2		

Bibliography
1. http://radumiron.net

9. Bridging course contents with the expectations of the representatives of the community, professional associations and employers in the field

The courses subjects cover the requirements of the IT employers, mainly those in the field of software engineering.
The laboratories are inspired from real life applications developed by IT companies from Cluj.

10. Evaluation

Activity type	Assessment criteria	Assessment methods	Weight in the final grade
Course	exam (E)	Written test OR Online exam on Bitbucket/Gitlab	0.5
Seminars			
Laboratories	tests (C)	Written test + source implementation OR On-line test on Bitbucket/Gitlab	0.5
Project			
Minimum standard of performance: E≥5; C≥5			

Date of filling in: 28.06.2022	Titulari	Title Firstname NAME	Signature
	Course	S.L. Dr. Ing. Radu Miron	
	Applications	S.L. Dr. Ing. Radu Miron
