Summer Practice

Ready to define your present and future?

Every day, your choices tell a story about you. They build up your present and your future. If you're ready to define part of your story, TEC is challenging you to do it as part of our summer practice program! If you're an autonomous person, curious by nature, attracted by challenges and excited about cutting-edge technologies, we want to meet you!

What to expect

You will be working on an internal project, which you'll be designing and delivering together with the members of your team. Things will be fun, and the project will be based on our company's actual needs. You will benefit from an agile mentorship and peer programming, as some of our most talented software developers will be by your side, helping you to understand, enabling you to implement and deliver a project of your own.

Benefits

- A friendly working environment
- Cool mentors to support you and your teammates
- Access to new technologies (.NET, .NET Core, ASP.NET, WebApi, MVC,

React, Microservices, Headless CMS)

- Gaining experience in Agile development methodologies (mainly Scrum)
- Access to learning platforms
- Access to internal trainings
- Shadowing on various projects
- Experiential learning
- Starting a project from scratch
- Teambuilding activities
- Other perks and benefits

Apply and enjoy a multidisciplinary team, real-time mentorship, and hands-on experience when it comes to technology!

Summer practice details

- Duration: 8 weeks
- Daily program: 6h per day, lunch break included
- No. of apprentices: 5 (4 Developers, 1 Quality Assurance Engineer)
- Apply until: May 1st
- Starting date: August 1st
- Selection process: logical test via FlexiQuiz, followed by an HR discussion

The summer practice will be conducted in a hybrid format (online and at the office), depending on the project requirements.

Dare to apply, we can't wait to meet you!

***If you apply below you will be redirected on the quiz page.**
