

Summer Internship 2023

July - September, 2023

ABOUT US

We are a cool team from Cluj-Napoca and since the beginning of our activity in 2012, Raptor has developed an increased focus on building solutions to real-world problems using embedded systems.

WHAT WE DO:

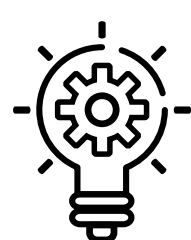

End-to-end embedded systems design, development and prototyping;
Embedded systems consulting for industrial, automotive, marine and rail clients;
Connected technologies experts for IoT and Smart Cities.

WHAT'S THE DEAL?

Learn the fundamentals of embedded systems,
C programming: how to design, develop and debug C code,
Hands-on learning with microcontrollers,
Building and testing circuits,
Build Your Own RealTime Operating System (RTOS),
You'll improve your debugging skills using oscilloscopes,
logic analyzers, and software instrumentation,
Put your knowledge and skills into practice.

✓ Paid internship ✓ 10 weeks of training, 8 hours/day ✓ Long-term collaboration

 Start date: July 17th 2023

Deepen what you are passionate about!

Send us your CV until 2nd June 2023 at: contact@raptor-technologies.ro
