

Software Development Summer Intern in Cluj

Projects:

- Test automation using Python and Robot Framework
- System monitoring using open-source tools like Icinga

We are looking for someone who:

- Commits themselves to solving problems and sticks with it
- Is a Bachelors Degree student in the final years
- Possesses knowledge of operating system fundamentals for Linux

Bonus points if that person:

- Can use Git
- Python knowledge
- Knows how to use Docker
- Has experience with Atlassian Stack

About the internship:

- Application deadline: **20th of April, 2022**
- Duration: two months (**18th of July-16th of September 2022**)

We are waiting for your application at the e-mail address: Raluca.Adamache@riverbed.com.
