Apply today!

Then, join us for a virtual group meet-up, where you will learn more about EY and what you can do here. After that you will take a logic test and a test to assess your technical skills. People that are selected to go further in the process will also have a discussion with a senior colleague.

Location: Cluj-Napoca, on-site, full time
Duration: July-August 2025

Type: Paid internship, with part-time or full-time developer positions post-internship, based on results
